## Questions and Answers

*Bill Clary*

Today's lesson will deal with some Bible questions and Bible answers that are necessary to understand if we are planning on being with God for eternity.

The Bible is not difficult to understand (most of it, that is) but one cannot plead ignorance and find that an acceptable excuse. Read Acts 17:30 for more information. We must be diligent in our efforts to understand God's word, 2 Tim. 2:15 and accept the teachings.

A preacher of the gospel will do his best to teach the precepts of Scripture and challenge all to review the teachings to enhance their understanding. He is to preach the word and not compromise. By asking questions that demand Bible answers, one will see their faith increase and knowledge grow as well.

If Jesus returned today, would you be ready to meet Him?

Think on these things!
